

City of Lancaster ROW Permits

General Information

1. Permits are required anytime there is work being performed within the City of Lancaster ROW.
2. Application must be made by all contractors performing any type of excavation within the ROW.
3. All contractors must be registered with the City of Lancaster.
4. The Permit must be approved prior to the contractor being allowed to begin work within the ROW.
5. Contractor must notify the City of Lancaster Public Works Inspector 48 hours in advance of starting work.

Special Cases – Additional Requirements

Lane Closure

1. A Traffic Control Plan that complies with the TMUTCD (*Texas Manual of Uniform Traffic Control Devices*) is required if working closer than 36 inches from the edge of pavement or back of curb.
2. Lane closures must be approved 48 hours in advance of closing so that the appropriate public safety notifications can be made.

Emergency Repairs

1. Contractor may complete without having made application or been issued an approved permit.
2. Permit application must be made within 24 hours of completion.
3. A Traffic Control Plan that complies with the TMUTCD (*Texas Manual of Uniform Traffic Control Devices*) is required if working closer than 36 inches from the edge of pavement or back of curb.
