March 19, 2021

To the Honorable Mayor, Members of City Council and Citizens of the City of Lancaster, Texas:

We hereby issue the comprehensive annual financial report of the City of Lancaster, Texas (City) for the fiscal year ended September 30, 2020. State law requires that every municipality publish within six months of the close of each year a complete set of audited financial statements, to include the auditor's opinion on the statements, and this report fulfills that requirement.

This report consists of City management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in the report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in accordance with generally accepted accounting principles (GAAP). Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City's financial statements have been audited by BKD, LLP, independent auditors. The goal of the independent audit is to provide reasonable assurance that the financial statements of the City for the fiscal year ended September 30, 2020, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation.

The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified (clean) opinion that the City's financial statements for the fiscal year ended September 30, 2020, are fairly presented in accordance with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

Profile

Located in Southwest Dallas County, the City of Lancaster is situated just minutes from downtown Dallas. Adjacent to I-35 on its western border and I-20 on its northern boundary, the City covers approximately 33.13 square miles, and serves an estimated 2020 population of 39,040. The City is a political subdivision and municipal corporation of the State, duly organized and existing under the laws of the State and is a home-rule city operating under a Council/Manager form of government. The Council is comprised of the Mayor and six Council members, who enact local legislation, adopt budgets, determine policies, and appoint the City secretary, City attorney and Judge of the municipal court. The City Manager, appointed by City Council, is the chief administrative officer for the City and is responsible for the daily management of the City. Major services provided under general government and enterprise functions are: public safety (police and fire protection), emergency ambulance services, construction and maintenance of streets, water and sewer services, parks and recreation, library services and general administrative services.

Accounting System and Budgetary Control

One of the objectives of the City's financial accounting system is to provide adequate internal controls. Internal controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition, and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived, and the evaluation of costs and benefits requires estimates and judgments by management. We believe that the City's internal controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

The City's accounting records for general governmental operations are maintained on a modified accrual basis, with revenues being recorded when available and measurable and expenditures being recorded when the services or goods are received, and the liabilities are incurred.

Accounting records for the City's enterprise activities are maintained on the accrual basis.

The government-wide financial statements are prepared using the accrual basis of accounting and the economic resources measurement focus. Government-wide financial statements do not provide information by fund, but distinguish between the City's governmental activities, business-type activities, and activities of its discretely presented component units on the statement of net position and statement of activities.

Budgetary Controls: The budgetary process begins each year with the preparation of both current and proposed revenue estimates by the City's administrative and financial management staff and expenditure estimates provided by each City department. Budgets are reviewed by the administrative and management staff which consists of the City Manager's office and department directors and managers. The City Manager makes final decisions and submits a recommended budget to the City Council. The proposed budget is reviewed by the City Council, a process which includes a Charter-mandated public hearing, in addition to work sessions which are open to the public. The City Charter requires adoption of the City budget at least 10 days prior to the beginning of the fiscal year.

The objective of the budgetary controls maintained by the City is to ensure compliance with legal provisions embodied in the annual budget approved by the City Council. Activities of the general fund, water and sewer fund, and other funds are included in the annual budget and are appropriated annually. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amounts) is established by departments within the individual fund. The City Manager is authorized to transfer budgeted amounts between line items and departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the City Council.

Monthly departmental expenditure reports are generated by an automated accounting system and provide expenditure totals and encumbrances at the line-item level for the most recently completed month as well as the year-to-date total, and an actual versus budgeted rate of expenditure. Major expenditure requests are approved by the City Manager prior to the encumbrance of funds.

Relevant Financial Policies

The City has established a policy to have a balanced budget and to maintain a reserve account. In fiscal year 2020, the General Fund accomplished this by having an unassigned fund balance of \$15,592,738 which exceeds reserve requirements of 12 percent of the operating budget.

The City also has a long-range planning policy to identify major issues when developing its fiscal year budget. A five-year budget analysis of all City funds is developed to provide an understanding of the long-term impact of budget decisions. The fiscal year 2020 budget was prepared along with a planning budget for fiscal years 2021-24.

Cash Management Policies and Practices: The City's current bank depository contract is with JP Morgan Chase and will be in effect through 2020. The City's investment policy is to minimize credit and market risks while maintaining a competitive yield on its portfolio. The City's investment strategies include using cash flow analysis to purchase securities; however, cash temporarily idle during the year was invested in three public funds investment pools – TexPool, LOGIC and Texas CLASS. This practice lessens the impact which rising interest rates have on the valuation changes of the portfolio. Investments in the deferred compensation plans are held by the third-party plan administrators. The investment policy is annually updated and approved by the Council in compliance with the *Texas Public Funds Investment Act*.

Pension and other post-employment benefit:

The City participates in the Texas Municipal Retirement System (TMRS), an agency authorized by the State of Texas. Employees of the City contribute a fixed percentage of their gross pay, currently seven percent in 2020. TMRS participants are immediately vested in those funds they contribute plus allocated interest. Participants are vested in employer contributions after five years of credited participation. If participants withdraw from TMRS prior to five years of credited participation, they may withdraw from TMRS those funds they contributed plus interest earnings. The City also provides postretirement health and dental care benefits for certain retirees and their dependents. As of the current fiscal year, there were ten retired employees receiving these benefits. Additional information on the City's pension arrangements and post-employment benefits can be found in the notes to the basic financial statements.

Local Economy

2020 was a year like no other, the COVID-19 global pandemic and numerous high-profile social justice issues had global impacts. The pandemic, specifically, impacted the world economy. Like communities around the country, Lancaster had a brief pause and shift in traditional operations of service delivery. While not immune from the impacts of the pandemic, our healthy reserve balance, prudent fiscal policies, conservative operational practices and timely actions by the City Council and management, allowed us to end the fiscal year in a positive position. The City of Lancaster received supplemental financial support from Dallas County through the federal government's Coronavirus Aid, Relief and Economic Security (CARES) Act. We successfully continued service delivery with minimal changes and disruptions while being in compliance with the health professionals recommended mitigation protocols to slow the spread of the COVID-19 virus.

Lancaster's growing economy continues to be greatly influenced by the attraction of the logistics industry to the community. Lancaster's premier industrial park, CSHV 20/35, has experienced the location of many well-known national corporations like United Natural Foods, Inc., Quaker PepsiCo, Johnstone Supply Inc., Mars Petcare Inc., BMW and Fisher Paykel. The interest of the development industry that specializes in logistics is strong and has led to the additional industrial parks such as Southpointe 20/35, Park 20 and MidPoint Logistics Center and recently a new player in Lancaster's industrial development. Corporations such as AT&T Corporation, Oncor Electric Delivery, Swift Transportation Inc., Mobis Parts America, Pappas Timber Products, LLC and Wayfair have located to Lancaster for its accessibility and strategic location. New logistics development in Lancaster is expected to continue.

New logistics development continued in Lancaster even during the pandemic. The Danish company, DSV Global Transport and Logistics broke ground on their new 1 million square feet U.S. regional headquarters valued at nearly 80 million total investment.

The City's unemployment rate for 2020 was an average of 11 percent. The unemployment rate for Dallas County was 8.1 percent for 2020. The City of Lancaster benefits from its proximity to the Dallas-Fort-Worth Motorplex and major transportation corridors with its location fifteen (15) miles south of downtown Dallas. Lancaster is a part of the Best Southwest area, which includes Lancaster, Cedar Hill, DeSoto, and Duncanville. The close proximity to job opportunities in Dallas, Fort Worth and the Mid-Cities continues to contribute to growth in the City. Its estimated population of 39,040 has grown over 50 percent since 2000, with a corresponding increase in the number of households during the same time. There is room for further development within the City's 33.13 square miles, since the City is only 50 percent built out.

In fiscal year 2020, the City experienced an increase in taxable assessed valuation and a slight increase in residential values, much like other cities in the Dallas-Fort Worth area. The City also experienced an increase in building permits. Sales tax decreased slightly in fiscal year 2020.

Long-term Financial Planning

The City has a long-range financial plan and has prudent fiscal policies and processes in place. It has met or exceeded all fund reserve goals, has funds available to address the needs of the community and responsibly manages its debt. The community continues to move toward a more competitive tax rate.

Unassigned fund balance in the general fund at year-end was 49 percent of total general fund expenditures. This amount was above the policy guidelines set by the Council for budgetary and planning purposes. The year-end amount was above the minimum target set by the policy guidelines. The net change in fund balance is \$1,590,689 for the year ended September 30, 2020.

Rising costs have been a challenge to the City; however, conservative revenue estimates and efforts to reduce expenditures have contributed to the City's strong financial position. Overall, revenues for the City have remained fairly stable, and we have incorporated several strategies to decrease the expenses over the next several years. The City is projecting an increase in property tax revenues and sales tax revenues to allow us to effectively meet operational objectives and comply with current fiscal policies.

The City has historically maintained strong General Fund balances and continues to respond proactively to the volatile economy by implementing budget cuts sufficient to offset the revenue loss. The City does not expect to utilize reserves for recurring operating expenditures. The City also utilizes extensive planning and conservative budgetary measures to balance its operations.

With Economic Development a major priority, sales tax receipts are expected to increase as the City continues to provide incentives for business operations moving to the City. Because of the City's proximity to Interstate 35 East and Interstate 20, businesses are recognizing Lancaster as one of the region's hot spots for growth, and the City is committed to supporting new and expanding companies.

Major Initiatives

Annually, the City Council has adopted goals aimed at guiding Lancaster's future growth and development. For fiscal year 2020-2021, included initiatives are:

- Quality development;
- Sound infrastructure;
- Professional and committed workforce;
- Health, safe and engaged community;
- Effective municipal operations; and
- Financially sound city government.

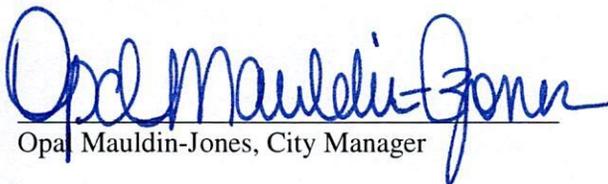

Awards and Acknowledgements

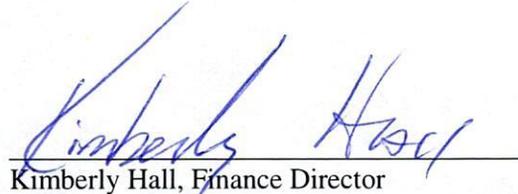

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certification of Achievement for Excellence in Financial Reporting to the City of Lancaster, Texas for its comprehensive annual financial report (CAFR) for the fiscal year ended September 30, 2018. In order to be awarded a Certificate of Achievement, the City of Lancaster, Texas had to publish an easily readable and efficiently organized CAFR that satisfied both generally accepted accounting principles and applicable program requirements.

A Certificate of Achievement for Excellence in Financial Reporting is valid for a period of one year only. The City has received a Certificate of Achievement for four years. We are waiting for the Certification for the September 30, 2019 CAFR, which was previously submitted to GFOA. However, we believe that our September 30, 2019 CAFR as well as the September 30, 2020 CAFR continue to meet the Certificate of Achievement for Excellence in Financial Reporting Program's requirements. We are submitting the September 30, 2020 report to the GFOA to determine eligibility for another certificate.

The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated services of the City's staff. In particular, we would like to recognize and express our heartfelt appreciation to all members of the Finance Department, who all worked diligently to assist and contribute to the preparation of this report. The Mayor and the City Council are to be commended for their willingness to participate in the strategic planning process for financial operations, and for their commitment to maintaining the highest standards of professionalism in the management of the City of Lancaster's finances.

Respectfully submitted,

Opal Mauldin-Jones, City Manager

Financial Section

Independent Auditor's Report

The Honorable Mayor and
Members of the City Council
City of Lancaster, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the City of Lancaster, Texas (City) as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City as of September 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison, pension and other post-employment benefits information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying combining and individual fund statements and the introductory and statistical sections as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

The Honorable Mayor and
Members of the City Council
Page 3

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Management's Discussion and Analysis (Unaudited)

September 30, 2020

Introduction

The Management's Discussion and Analysis (MD&A) section presents a narrative overview and analysis of the financial activities of the City of Lancaster, Texas (City) for the fiscal year ended September 30, 2020. We encourage readers to consider the information presented here in conjunction with the City's financial statements, which follow this section.

Financial Highlights

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the end of fiscal year 2020, resulting in \$140,295,544 of net position. Net position associated with governmental activities is \$61,392,086, or 44 percent of the total net position of the City. Net position associated with business-type activities is \$78,903,458, or 56 percent of the total net position of the City. The largest portion of net position consists of net investment in capital assets, which is \$79,805,254.
- Unrestricted net position, which may be used to meet the City's future obligations, consists of \$51,010,226, or 36 percent of the City's total net position. Unrestricted net position for governmental activities is \$14,630,657, or 24 percent of total net position for governmental activities. Unrestricted net position for business-type activities is \$36,379,569 or 46 percent of total net position for business-type activities.
- As of the close of fiscal year 2020, the City's Governmental Funds reported a combined ending fund balance of \$39,186,737, an increase of \$3,482,371 from the prior year.
- At the end of the current fiscal year, total fund balance for the General Fund was \$15,906,573. This represents approximately 50 percent of General Fund expenditures.

Overview of the Financial Statements

The discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements and (3) notes to the financial statements. This report also contains required and other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to private-sector business.

The statement of net position presents information on all of the City's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

City of Lancaster, Texas
Management's Discussion and Analysis (Unaudited)
September 30, 2020

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods, for example uncollected taxes and earned, but not used, vacation leave.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general administration, public safety, public works, drainage systems, library, human resources and finance. The business-type activities of the City include water and sewer, airport operations, refuse and golf course operations.

The government-wide financial statements include the Economic Development Corporation and the Recreational Development Corporation as part of its reporting entity as discretely presented component units. Discrete presentation entails reporting component unit financial data in columns separate from the financial data of the primary government. The Lancaster Economic Development Corporation and the Lancaster Recreational Development Corporation are legally separate entities.

Fund Financial Statements. A *fund* is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations. Some funds are required to be established by state law and by bond covenants. The City Council also establishes other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities when using certain taxes, grants or other money. The City's two kinds of funds – Governmental and Proprietary – utilize different accounting approaches.

Governmental Funds. The majority of the City's basic services are reported in Governmental Funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method identified as the modified accrual basis of accounting, which measures cash and all other financial assets that can be readily converted to cash. The Governmental Fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental Fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs.

By comparing information presented for Governmental Funds with similar information presented for governmental activities in the government-wide financial statements, readers may better understand the long-term impact of the government's near-term financing decisions. The relationships, or differences between governmental activities (reported in the accompanying Statement of Net Position and the Statement of Activities) and Governmental Funds, are detailed in a reconciliation following the fund financial statements.

City of Lancaster, Texas
Management's Discussion and Analysis (Unaudited)
September 30, 2020

Information is presented separately in the accompanying Governmental Funds Balance Sheet and in the accompanying Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances for the General Fund, Debt Service Fund and Capital Projects Fund, all of which are considered to be major funds. Data from the other Governmental Funds are combined into a single, aggregated presentation. Individual fund data for each of these Non-major Governmental Funds is provided in the form of combining statements elsewhere in this report.

Proprietary Funds. The City charges customers for the services it provides, whether to outside customers or to other units within the City. These services are generally reported in Proprietary Funds. Proprietary Funds are reported in the same way that all activities are reported in the accompanying Statement of Net Position and the Statement of Activities. The City's Enterprise Funds (a component of Proprietary Funds) are identical to the business-type activities reported in the government-wide statements, but provide information, such as cash flows.

The City maintains an Enterprise Fund to account for: (1) water and sewer services provided to the City's retail and wholesale customers, (2) trash collection and disposal services, (3) operation of the City's airport and (4) operation of the City's golf course. All activities associated with providing such services are accounted for in these funds, including administration, operation, maintenance, debt service, capital improvements, billing and collection. The City's intent is that the cost of providing the services to the general public on a continuing basis is financed through user charges in a manner similar to a private-sector business enterprise.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's progress in funding its obligations. Required supplementary information immediately follows the notes to the financial statements. Combining statements for Non-major Governmental Funds, Enterprise Funds and component units fund financial statements follow the section of required supplementary information.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. As of September 30, 2020, City assets and deferred outflows of resources exceeded its liabilities and deferred inflows resulting in \$140,295,544 of net position.

By far, the largest portion of the City's net position (57 percent) reflects its investment in capital assets (e.g., land, buildings, machinery, equipment, vehicles and infrastructure), less any related outstanding debt that was used to acquire those assets. The City uses these capital assets to provide a variety of services to its citizens. Accordingly, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position (6.8 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$51,010,226 is unrestricted and may be used to meet the government's ongoing obligations to its citizens and creditors.

Analysis of City's Operations. The following table provides a summary of the City's operations for the year ended September 30, 2020. Overall, the City had an increase in net position of \$9,708,332.

Governmental Activities. Governmental activities increased the City's net position by \$6,841,820. Total revenue for the governmental activities (excluding transfers) increased from the previous year by \$3,330,542. General revenue had a net increase of \$1,811,379. Property tax collections increased as a result of real property reappraisals and new business and property additions which continues to grow the local economy.

Business-type Activities. Net position from business-type activities increased by \$2,866,512. Total revenue for the business-type activities increased from the previous year by \$341,722 primarily due to an increase in charges for services revenue.

Management's Discussion and Analysis (Unaudited)
September 30, 2020

Financial Analysis of the City's Funds

Governmental Funds

The focus of the City's Governmental Funds is to provide information on near term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's Governmental Funds reported a combined ending fund balance of \$39,186,737, an increase of \$3,482,371 from the prior year. This amount includes fund balance restricted for Public Improvement Districts of \$1,379,979, restricted for Capital Projects of \$8,594,068, restricted for Public Works of \$4,317,402, restricted for Court of \$202,154, restricted for Police Grants and Law Enforcement Purposes of \$1,383,977, restricted for Tourism of \$1,216,936, restricted for Park Land Dedication of \$431,378 and restricted for Streets of \$659,406. The net unassigned fund balance was \$15,592,738, an increase of \$1,567,143 from prior year. Components of the net increase of the total fund balance are:

- The General Fund recorded a net increase in fund balance of \$1,590,689, primarily related to funds received for Grants.
- General Obligation Debt Service Fund recorded a net increase in fund balance of \$2,051,443, primarily related to taxes.

Proprietary Funds

The City's proprietary funds provide the same type of information found in the government-wide financial statements. Unrestricted net position of the Water and Sewer Fund at the end of the fiscal year amounted to \$35,756,645 and the Airport Fund reported an unrestricted net position of (\$1,645,467).

Capital Assets

The City's capital assets for its governmental and business-type activities as of September 30, 2020, amount to \$151,394,571 (net of accumulated depreciation). This net investment in capital assets includes land, buildings, park facilities, roads, bridges and water and sewer lines.

Additional information on capital asset activity can be found in *Note 6* of this report.

Long-term Debt

At the end of the current fiscal year, the City had total bonds outstanding of \$71,685,000, all being tax supported. The City also has \$2,699,632 of additional debt through notes payable and capital leases.

The City of Lancaster issued General Obligation Refunding Bonds, Series 2020 in the amount of \$24.53 million during the current fiscal year. This issuance included the refunding of General Obligation Bonds, Taxable Series 2010A in the principal amount of \$27.77 million.

Additional information on long-term debt activity can be found in *Note 7* of this report.

The City has an Aa3 rating from Moody's Investors Service and an AA rating from Standard and Poor's.

Economic Factor and Next Year's Budgets and Rates

In the fiscal year 2021 budget, General Fund revenues are budgeted to decrease by 1.16 percent from the 2020 budget year. This decrease is mostly due to a decrease in sales tax revenue due to the impact of the COVID-19 pandemic, and changes in certain laws regarding franchise taxes.

Property taxes make up about 61 percent of budgeted revenues and sales tax make up about 16 percent of budgeted revenues.

City of Lancaster, Texas
Reconciliation of the Balance Sheet of
Governmental Funds to the Statement of Net Position
September 30, 2020

Total fund balances – governmental funds \$ 39,186,737

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets (net of accumulated depreciation) used in governmental activities are not current financial resources and therefore are not reported as assets in the governmental funds. Capital assets are reported in the government-wide financial statements, net of accumulated depreciation. 102,827,022

Interest payable on long-term debt does not require current financial resources, therefore interest payable is not reported as a liability in the governmental funds balance sheet. (316,616)

Revenues earned but not available within 60 days of the year-end are not recognized as revenue on the fund financial statements. 2,336,177

Notes receivable are not measurable and available within 60 days of year-end, and therefore are entirely deferred in the fund financial statements. 5,500,000

Deferred outflows of resources and deferred inflows of resources represent flows of resources which relate to future periods and, therefore, are not reported in the fund financial statements. Deferred outflows of resources and deferred inflows of resources at year-end consist of:

Deferred charges on refunding	\$ 1,159,711	
Employer contributions (GASB 75)	42,760	
Assumption changes (GASB 75)	213,085	
Experience difference (GASB 75)	(39,166)	
Employer contributions (GASB 68)	1,535,022	
Investment return difference (GASB 68)	(2,082,760)	
Assumption changes (GASB 68)	172,879	
Experience difference (GASB 68)	<u>263,901</u>	1,265,432

Long-term liabilities, including bonds payable are not due and payable in the current period and therefore are not reported in the fund financial statements. Long-term liabilities at year-end consist of:

General obligation bonds	\$(61,910,017)	
Certificates of obligation	(3,680,000)	
Note payable	(1,859,583)	
Premiums on bond debt	(5,322,457)	
Net pension liability	(10,496,226)	
Compensated absences	(3,401,427)	
Total OPEB liability	(1,896,907)	
Capital leases	<u>(840,049)</u>	<u>(89,406,666)</u>

Total net position of governmental activities \$ 61,392,086

City of Lancaster, Texas
Reconciliation of the Statement of Revenues, Expenditures and Changes in
Fund Balances of Governmental Funds to the Statement of Activities
For the Year Ended September 30, 2020

Net change in fund balances – total governmental funds		\$ 3,482,371
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount of capital assets recorded in the current period.		6,381,963
Depreciation expense on capital assets is reported in the statement of activities but does not require the use of current financial resources. Therefore, depreciation expense is not reported as expenditures in the governmental funds.		(6,056,763)
Current year principal payments of long-term liabilities are shown as expenditures in the fund financial statements, but shown as reductions in long-term liabilities in the government-wide financial statements as follows:		
General and certificates of obligation bonds	3,615,000	
Notes payable	417,190	
Capital leases	189,507	4,221,697
The issuance of long-term debt, such as bonds and capital leases, are shown as “Other Sources” and “Other Uses” in the governmental funds, but are shown on the statement of net assets with related costs amortized over the life of the bonds. Differences consist of the following:		
Issuance of general obligation bonds	(24,530,000)	
Payment to escrow agent	27,907,758	
Bond premium/discount	(3,675,133)	
Amortization of deferred loss	(136,259)	
Amortization of bond premium/discount	308,084	(125,550)
Current year pension expenditures are reported on the fiscal year basis on the statement of revenues, expenditures and changes in fund balance and as actuarially determined in the government-wide statement of activities. These differences are reflected in deferred outflows of resources and deferred inflow of resources balances.		(478,738)
Current year change in long-term liability for compensated absences and OPEB liability do not require the use of current financial resources; therefore, are not reported as expenditures in governmental funds.		99,974
Current year changes in accrued interest payable do not require the use of current financial resources; therefore, are not reported as expenditures in governmental funds.		122,180
Certain revenues in the government-wide statement of activities that do not provide current financial resources are not reported as revenue in the governmental funds. This is the net change in these revenues for the year.		(805,314)
Change in net position of governmental activities		\$ 6,841,820

Note 1: Summary of Significant Accounting Policies

The accounting and reporting policies of the City of Lancaster (City) conform to the generally accepted accounting principles (GAAP) applicable to state and local governments. The Governmental Accounting Standards Board (GASB) is the accepted standards setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant accounting policies.

Reporting Entity

The City was incorporated in 1853. The City operates as a home-rule city, under a Council-manager form of government and provides the following services as authorized by its charter: public safety (police and fire), highways and streets, water and sewer utilities, sanitation, health and social services, parks and recreation, public improvements, airport, golf course, planning and zoning and general administrative services.

The City's basic financial statements include the separate governmental entities that are controlled by or are dependent on the City. The determination to include separate governmental entities is based on the criteria of GASB Statement No. 14, *The Financial Reporting Entity* (GASB 14), as amended by GASB Statement No.39, *Determining Whether Certain Organizations Are Component Units* and GASB Statement No. 61, *The Financial Reporting Entity: Omnibus*. GASB 14 defines the reporting entity as the primary government and those component units for which the primary government is financially accountable. To be financially accountable, a voting majority of the component unit's board must be appointed by the primary government, and either: (1) the primary government must be able to impose its will or (2) the primary government may potentially benefit financially or be financially responsible for the component unit. The Lancaster Economic Development Corporation (Economic) and the Lancaster Recreational Development Corporation (Recreational) are nonprofit industrial development corporations formed in July and October 1995, respectively, under the *Development Corporation Act of 1979*. Both Economic and Recreational are organized exclusively for the purposes of benefiting and accomplishing public purposes and to act on behalf of the City. This includes the construction and renovation of municipal buildings, the acquisition, improvement and operation of parks, as well as, other economic development purposes. The affairs of these corporations are managed by two separate Boards of Directors, which are appointed by the City Council. The City Council approves annual budgets and issuances of debt. Economic and Recreational have been discretely presented in the accompanying financial statements. Separate stand-alone financial statements of the individual component units are not available.

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

Basis of Presentation

Government-Wide Financial Statements

The government-wide financial statements (the statement of net position and the statement of activities) report information on all of the activities of the City. The effect of interfund activity, within the governmental and business-type activities columns, has been removed from these statements. However, interfund services provided and used are not eliminated in the consolidation process. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of net position presents information on all the City's assets, deferred outflows, and liabilities and deferred inflows of resources, with the difference reported as "net position." Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific program of City government. *Program revenues* include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given program and (2) operating or capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items properly not included among program revenues are reported instead as general revenues.

Fund Financial Statements

The City segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Separate statements are presented for Governmental Funds and Proprietary Funds. These statements present each major fund as a separate column on the fund financial statements; all non-major funds are aggregated and presented in a single column.

Governmental Funds are those funds through which most governmental functions typically are financed. The measurement focus of Governmental Funds is on the sources, uses and balances of current financial resources. The City has presented the following major Governmental Funds:

General Fund – The General Fund is the main operating fund of the City. This fund is used to account for all financial resources not accounted for in other funds. All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures, fixed charges and capital improvement costs that are not paid through other funds are paid from the General Fund.

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

Capital Projects Fund – The Capital Projects Fund is utilized to account for financial resources to be used for the acquisition or construction of major capital facilities.

General Obligation Debt Service Fund – The Debt Service Fund is used to account for the accumulation of resources and for the payment of general long-term debt principal, interest and related costs, as well as the payment of lease/purchase items. The revenue source is principally ad-valorem taxes levied by the City and transfers in for the payment of lease/purchases.

Proprietary Funds are accounted for using the economic resources measurement focus and the accrual basis of accounting. The accounting objectives are determinations of net income, financial position and cash flow. All assets, deferred outflows and inflows of resources and liabilities are included on the Statement of Net Position. The City has presented the following major Proprietary Funds:

Water and Sewer Fund – The Water and Sewer Fund is used to account for the acquisition, operation and maintenance of a municipal water and sewer utility, supported primarily by user charges to the public.

Airport Fund – The Airport Fund is used to account for the operation of the City’s regional airport.

Proprietary Funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a Proprietary Fund’s principal ongoing operations. Operating expenses for the Proprietary Funds include the cost of personnel and contractual services, supplies and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Fund Balance Flow Assumptions

Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the City’s policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

Classification of Fund Equity

Fund balances are classified as nonspendable, restricted, committed, assigned or unassigned in governmental funds. Nonspendable fund balance cannot be spent, either because it is not in spendable form or because of legal or contractual requirements. Restricted fund balances have constraints for specific purposes which are externally imposed by providers, such as creditors, grantors or other governments; or by enabling legislation of the City Council. Committed fund balances can only be used for specific purposes pursuant to constraints imposed by the City Council through an ordinance or resolution. Assigned fund balances are constrained by intent to be used for specific purposes but are neither restricted nor committed. Assignments are made by City management based on Council direction. Unassigned fund balances include residual positive fund balances within the General Fund that had not been classified within the other mentioned categories. Unassigned fund balances may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed or assigned for those specific purposes.

Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide and proprietary funds financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus. Revenues are recognized as soon as they are both measurable and available.

Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

Property taxes, sales taxes, franchise taxes, fines and forfeits, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Licenses and permits, charges for services (except for sanitation services) and rents and concessions are recorded as revenues when received in cash because they are generally not measurable until actually received. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the City.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the City considers cash and cash equivalents to be cash, external investment pools and certificates of deposit with an original maturity date of three months or less.

Investments

Investments in external investment pools are carried at either net asset value or amortized cost, as determined by each pool's individual investment valuation method and whether there is a readily determinable fair value of the pool as of the City's fiscal year end. In instances where pools transact at amortized cost, no readily determinable fair value is deemed available.

Allowance for Uncollectible Accounts

An allowance for uncollectible taxes including penalties and interest and water and sewer billed receivables is provided based on an analysis of historical trends. The allowances at September 30, 2020, were \$796,064 for uncollectible taxes, \$2,117,350 for water and sewer billings, \$465,069 for court fees and fines and \$631,092 for ambulance fees.

Inventory

Inventories, which are recognized as expenditures as they are consumed, are stated at cost (first-in, first-out) for Governmental Funds. Inventories in the General Fund consist of expendable supplies.

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

Prepaid Items

Prepaid balances, which are recognized as expenditures as they are consumed, are for payments made by the City in the current year for services occurring in the subsequent year.

Interfund Receivables and Payables

Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

Interfund Transactions

Interfund services provided and used are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as a reduction of expenditures/expenses in the fund reimbursed. All other interfund transactions, except quasi-external transactions and reimbursements, are recorded as transfers.

Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the fund financial statements for Proprietary Funds. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at acquisition value on the date donated. Repairs and maintenance are recorded as expenses. Renewals and betterments are capitalized. Interest is capitalized on Proprietary Fund type assets acquired with tax-exempt debt. The amount of interest to be capitalized is calculated by offsetting interest expenses incurred from the date of the borrowing unit until completion of the project with interest earned on invested proceeds over the same period.

All items purchased with a price of \$5,000 or greater and a useful life exceeding one year is placed on the capital asset list. Each department is required to monitor their inventory and is accountable for the location of the asset. Asset tags are issued after payment has been processed. The Purchasing Agent conducts a yearly inventory to verify the inventory.

Assets capitalized have a useful life of over one year. Depreciation is recorded on each class of depreciable property utilizing the straight-line method over the estimated useful lives of the assets. Estimated useful lives of major categories of property are:

Plants and buildings	40 years
Improvements	5 – 50 years
Machinery and equipment	5 – 10 years

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has the following items that qualify for reporting in this category.

- Deferred loss on refunding – A deferred loss on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and recognized over the shorter of the life of the refunded or refunding debt.
- Employer Contributions – Pensions and OPEB – These contributions are those made after the measurement date through the fiscal year end (January 1st – September 30th) resulting in a cash outlay not yet recognized in GASB Statement No. 68, *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27* (GASB 68) and GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* (GASB 75). This amount is deferred and recognized in the following fiscal year.
- Experience difference – Pensions and OPEB – These amounts represent the difference in expected and actual pension and OPEB experience. These differences are deferred and recognized over the estimated average remaining lives of all members determined as of the measurement date.
- Assumption changes – Pensions and OPEB – These amounts represent the difference resulting from a change in assumptions used to measure the underlying total pension liability and total OPEB liability. These differences are deferred and recognized over the estimated average remaining lives of all members determined as of the beginning of the measurement period.

In addition to liabilities, the statement of net position or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until then.

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

The City has the following items that qualify for reporting in this category.

- Unavailable revenue – This amount represents uncollected property taxes, municipal court fees, ambulance fees and notes receivables. This amount is deferred and recognized once payments are made in the follow fiscal year. This item is only presented in the Balance Sheet – Governmental Funds.
- Experience difference – OPEB –These amounts represent the difference in expected and actual OPEB experience. These differences are deferred and recognized over the estimated average remaining lives of all members determined as of the measurement date.
- Investment difference – Pensions – These amounts represent the difference in projected and actual earnings on pension plan assets. These differences are deferred and amortized over a closed five-year period.

Compensated Absences

Sick leave is recorded on governmental activities for the Fire and Police Departments. All other employees are not compensated for unused sick leave. Vacation is earned in varying amounts up to a maximum of 20 days per year for employees with 10 or more years of service. Unused vacation leave carried forward from one year to the next is limited to 260 hours.

The liability for unused vested vacation leave as of September 30, 2020, is shown as a liability for compensated absences in the applicable governmental or business-type activities columns in the government-wide statements and in the fund financial statements for the Proprietary Funds. The amount to be paid from current available financial resources is not considered significant.

Defined Benefit Pension Plans

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the Fiduciary Net Position of the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS' Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. Information regarding the City's total pension liability is obtained from TMRS through a report prepared for the City by TMRS' consulting actuary, Gabriel Roeder Smith & Company, in compliance with GASB 68.

Fund allocation of related balances is determined by individual employee assignment. This assignment is uniform with regard to liquidation of the liability.

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

Defined Benefit Other Postemployment Benefit Plans

The City has two single-employer defined benefit other postemployment benefit (OPEB) plans. For purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB and OPEB expense have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms.

Allocation of OPEB related balances to reporting units is determined on the basis of employee payroll funding. The total OPEB liability is generally liquidated in the General Fund.

New Pronouncements

The GASB has issued the following new statements to be implemented in future years.

GASB Statement No. 84, *Fiduciary Activities*: (GASB 84)

This statement establishes criteria for identifying fiduciary activities. It presents separate criteria for evaluating component units, pension and other postemployment benefit arrangements and other fiduciary activities. The focus is on a government controlling the assets of the fiduciary activity and identification of the beneficiaries of those assets. Fiduciary activities are reported in one of four types of funds: pension (and other employee benefit) trust funds, investment trust funds, private-purpose trust funds or custodial funds.

Custodial funds are used to report fiduciary activities that are not held in a trust. The agency fund designation will no longer be used. GASB 84 also provides guidance on fiduciary fund statements and timing of recognition of a liability to beneficiaries. This standard becomes effective for the City in fiscal year 2021.

GASB Statement No. 87, *Leases* (GASB 87):

This statement provides a new framework for accounting for leases under the principle that leases are financings. No longer will leases be classified between capital and operating. Lessees will recognize an intangible asset and a corresponding liability. The liability will be based on the payments expected to be paid over the lease term, which includes an evaluation of the likelihood of exercising renewal or termination options in the lease. Lessors will recognize a lease receivable and related deferred inflow of resources. Lessors will not derecognize the underlying asset.

An exception to the general model is provided for short-term leases that cannot last more than 12 months. Contracts that contain lease and nonlease components will need to be separated so each component is accounted for accordingly. This standard becomes effective for the City in fiscal year 2022.

The City has not yet determined the effect on the City's financial statements or disclosures upon implementation of these new accounting standards.

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

Note 2: Deposits and Investments

The deposit and investment policies of the City are governed by State Statutes and the adopted City Investment Policy. City policies governing bank deposits require depositories to be FDIC-insured institutions, and depositories must fully collateralize all deposits in excess of FDIC insurance limits.

Statutes authorize the City to invest in obligations of the U.S. Treasury and U.S. agency securities, repurchase agreements and municipal pools.

The City utilizes a pooled investment concept for all its funds to maximize its investment program. Investment income from this internal pooling is allocated to the respective funds based upon the sources of funds invested.

During the year ended September 30, 2020, the City invested in Texas CLASS, TexPool and LOGIC, which are investment pools authorized by the Texas Legislature.

Texas CLASS Texas Cooperative Liquid Assets Securities System (Texas CLASS). Texas CLASS was created specifically for the use of Texas local government entities and seeks to provide safety, liquidity, convenience and competitive rates of return. Public Trust Advisors, LLC serves as the pool's administrator and investment adviser. The marketing and operation functions of the portfolio are also performed by Public Trust Advisors, LLC. The pool is subject to the general supervision of the Board of Trustees and its Advisory Board, both of which are elected by the Texas CLASS Participants.

Wells Fargo Bank, N.A. serves as custodian for the pool. The investment objective and strategy of the pool is to seek preservation of principal, liquidity and current income through investment in a diversified portfolio of short-term marketable securities. The pool offers same day access to investment funds.

Texas CLASS attempts to minimize its exposure to market and credit risk through the use of various strategies and credit monitoring techniques. Texas CLASS limits its investments in any issuer to the top two ratings issued by nationally recognized statistical rating organizations. Texas CLASS is rated AAAM by Standard & Poor's.

The State Comptroller of Public Accounts exercises oversight responsibility over TexPool. Oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters. Additionally, the State Comptroller has established an Advisory Board composed both of participants in TexPool and of other persons who do not have a business relationship with TexPool. The Advisory Board members review the investment policy and management fee structure. Finally, TexPool is rated AAAM by Standard & Poor's. TexPool is not registered with the Securities and Exchange Commission (SEC) as an investment company.

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

LOGIC was established pursuant to an Interlocal Agreement, which was subsequently amended and is now entitled Participation Agreement and Trust Instrument (Agreement) between participating Government Entities. Participation in the Pool is limited to those eligible Government Entities which have become parties to the Agreement (Participants). Participants' assets in the Pool are represented by units of beneficial interest (Units), which are issued in discrete series (each a "Portfolio"), as authorized from time to time by the Board. Assets invested in any Portfolio will be managed separately, and segregated from, the assets of every other Portfolio. Since September 2005, J.P. Morgan Investment Management Inc. (JPMIM) has served as investment adviser to LOGIC. FirstSouthwest, a Division of Hilltop Securities (FirstSouthwest) and JPMIM serve as co-administrators to LOGIC, and FirstSouthwest provides administrative, participant support and marketing services. JPMorgan Chase Bank N.A. provides custodial services. The investment objective and strategy of the pool is to seek preservation of principal, liquidity and current income through investment in a diversified portfolio of short-term marketable securities. The pool offers same day access to investment funds. LOGIC is rated AAAM by Standard & Poor's.

TexPool is carried at amortized cost. Texas CLASS and LOGIC are carried at net asset value. Accordingly, the fair value of the position in the pools is the same as the value of the pools shares.

As of September 30, 2020, the City had cash and cash equivalents as classified below:

Primary Government	
Cash	\$ 1,495,483
Cash equivalents	<u>74,004,709</u>
	<u>75,500,192</u>
 Component Units	
Cash	21,272
Cash equivalents	<u>8,533,760</u>
	<u>8,555,032</u>
 Total cash and cash equivalents	 <u>\$ 84,055,224</u>

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

As of September 30, 2020, the City held the following investments:

	Carring Value	Weighted- Average Maturity (Days)
Primary Government		
TexPool	\$ 39,260,357	30
LOGIC	30,415,464	34
Texas CLASS	4,328,888	22
Total primary government	74,004,709	
Component Units		
TexPool	4,527,258	30
LOGIC	3,507,321	34
Texas CLASS	499,181	22
Total component units	8,533,760	
Total investments	\$ 82,538,469	

Interest Rate Risk

The strategy of the City is to maintain sufficient liquidity in its portfolio and structure the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the secondary market prior to maturity.

Custodial Credit Risk

Custodial credit risk is the risk that a government will not be able to recover: (a) deposits if the depository financial institution fails or (b) the value of investment or collateral securities that are in the possession of an outside party if the counterparty to the investment or deposit transaction fails. To minimize such risk, the City requires collateralization of most deposits in excess of coverage, utilizes the delivery vs. payment method for investment purchases and contracts with a third-party safekeeping agent.

Credit Risk

It is the City's policy to follow statutes, which authorize the City to invest in obligations of the U.S. Treasury agencies and instrumentalities, obligations of the state of Texas and related agencies, obligations of states, agencies, counties, cities and other political subdivisions of any state rated "A" or above by Standard & Poor's Corporation or Moody's, repurchase agreements and designated investment pools. The City's assets in investment pools meet this requirement as noted above.

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

Note 3: Disclosures About Fair Value of Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying financial statements measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at September 30, 2020:

	Fair Value
September 30, 2020	
Investments Measured at Net Asset Value	
LOGIC	\$ 33,922,785
TexCLASS	4,828,069
Subtotal	38,750,854
Investments Measured at Amortized Cost	
TexPool	43,787,615
Total investments	\$ 82,538,469

Certain investments that are measured using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts included above approximate net asset value for all related external investment pool balances.

September 30, 2020

Note 4: Property Taxes

Property taxes attach as an enforceable lien on property as of October 1. Taxes are levied on October 1, and are due and payable on or before January 31, of the following year. All unpaid taxes become delinquent February 1, of the following year. Tax collections for the year ended September 30, 2020, were 99 percent of the levy. Dallas County bills and collects property taxes for the City. Any uncollected property taxes at September 30, that are collected within 60 days is recognized as revenue and recorded as taxes receivable. Any uncollected property taxes at September 30, which are not expected to be collected within 60 days, are recorded as taxes receivable and deferred inflow of resources in governmental funds. Anticipated refunds of such taxes are recorded as liabilities and reductions of revenue when they are measurable, and their validity seems certain.

The statutes of the state of Texas do not prescribe a legal debt limit, nor does the City's charter provide for a debt limit. However, provision of Article XI, Section 5 of the Texas Constitution applicable to cities with populations greater than 5,000 limits the ad-valorem tax rate to \$2.50 per \$100 assessed valuation. However, as a city operating under a Home Rule Charter, the City has a debt limit of \$1.50 per \$100 assessed valuation. For the year ended September 30, 2020, the City had a tax rate of \$.8197 per \$100.00 assessed valuation, of which \$.6052 was allocated for general government and \$.2146 was allocated for the payment of principal and interest on general obligation debt.

In Texas, county-wide central appraisal districts are required to assess all property within the appraisal district on the basis of 100 percent of its appraised value and are prohibited from applying any assessment ratios. The value of property within the appraisal district must be reviewed every three years; however, the City may, at its own expense, require annual reviews of appraised values.

The City may challenge appraised values established by the appraisal district through various appeals and, if necessary, legal action. Under this legislation, the City continues to set tax rates on City property.

However, if the effective tax rate, excluding tax rates for bonds and other contractual obligations, adjusted for new improvements, exceeds the tax rate for the previous year by more than eight percent, qualified voters of the City may petition for an election to determine whether to limit the tax rate to no more than eight percent above the tax rate of the previous year. This legislation provides that, if approved by the qualified voters in the City, both the appraisal and collection functions may be placed with the appraisal district. In addition, the City may obtain approval from its governing body to place these functions with the appraisal district.

Note 5: Interfund receivables, payables, and transfers

Due To/Due From

Due to and due from other funds are the short-term portion of the advances to and advances from other funds. For the year ended September 30, 2020, due to due from transactions, excluding discretely presented component units were as follows:

	Due to Other Funds	Due from Other Funds
General Fund	\$ -	\$ 2,726,387
Capital Projects		18,468
Water and Sewer Fund	674,036	-
Golf Fund	1,198,941	-
Airport Fund	871,878	-
Total due to/due from	\$ 2,744,855	\$ 2,744,855

Interfund Transfers

For the year ended September 30, 2020, interfund transactions, excluding discretely presented component units were as follows:

	Transfers In	Transfers Out
General Fund	\$ 1,886,227	\$ -
Capital Projects Fund	-	-
Nonmajor Governmental Funds	-	61,460
Water and Sewer Fund	-	1,638,894
Airport Fund	-	24,373
Nonmajor Enterprise Funds	-	161,500
Total interfund transfers	\$ 1,886,227	\$ 1,886,227

The interfund transfers to the General Fund and Airport Fund from the Non-major Governmental and Enterprise Funds, Water and Sewer Fund, and Airport Fund is for indirect services provided by central service departments accounted for in the General Fund.

General long-term debt consists of the following: capital leases; liabilities for accrued vacation leave; general obligation bonds and certificates of obligation, which are direct obligations; issued on the full faith and credit of the City. Principal and interest payments on the general obligation bonds and certificates of obligation are secured by ad-valorem taxes levied on all taxable property within the City, and surplus revenues of the Water and Sewer Fund and Airport Fund. A portion of the general obligation bonds has been issued on behalf of the Water and Sewer Fund. Although these bonds are secured by the full faith and credit of the City and have no specific claim against Water and Sewer Fund assets, debt service requirements are provided by the Water and Sewer Fund. Accordingly, this debt is reflected as an obligation of the Water and Sewer Fund.

For the governmental activities, compensated absences and net pension liabilities are generally liquidated in the General Fund and Stormwater Fund. The total OPEB liability is generally liquidated in the General Fund.

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

General obligation bonds, revenue bonds, certificates of obligation, notes payable and capital leases outstanding at September 30, 2020, consist of the following:

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

The city has pledged future water customer revenues, net of specified operating expenses, to repay \$7.6 million in water system revenue bonds issued in 2011. Proceeds from the bonds provided financing for the improvement to the Airport. The bonds are payable solely from water customer net revenues and are payable through 2032. Annual principal and interest payments on the bonds are expected to require less than 25 percent of net revenues. The total principal and interest remaining to be paid on the bonds is \$5,815,098. Principal and interest paid for the current year was \$494,456. Total water and sewer customer net revenues for the current year were \$4,194,112.

Capital leases represent the remaining principal amounts payable under lease purchase agreements for the acquisition of equipment through the General Fund and Water and Sewer Fund. The lease purchase agreements are collateralized by the related financed equipment.

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

As of September 30, 2020, property and equipment under capital leases is carried at \$1,701,386, with \$864,534 in estimated accumulated depreciation, included in fixed assets. Amortization of these assets is included with depreciation expense.

The annual requirements to amortize the long-term debt as of September 30, 2020, are as follows:

Changes in Financing

During fiscal year 2020, the City executed a current refunding in the amount of \$27,770,000 of Series 2010 Certificates of Obligation and General Obligation Bonds. The bonds were refunded with \$24,530,000 Series 2020 General Obligation Refunding Bonds dated February 19, 2020 bearing interest at rates ranging from 3% to 4%. The refunding was undertaken to achieve debt service savings and the remaining proceeds from the sale of the bonds will be used for the discharge and final payment of certain outstanding obligations for the City. As a result of the refunding transaction, the City achieved a cash flow savings of \$5,715,639 and an economic gain of \$4,443,702.

Note 8: Employee Retirement System

Plan Description

The City provides pension benefits for all of its full-time employees through a nontraditional, joint contributory, hybrid defined benefit plan in the state-wide TMRS, an agent multiple-employer public employee retirement system. The plan provisions that have been adopted by the City are within options available in the governing state statutes of TMRS. Lancaster Economic Development Corporation and Lancaster Recreational Development Corporation contribute to the plan with a cost share of 0.93 percent and 4.46 percent, respectively. There were no significant changes in the component unit's proportion to the plan during fiscal year 2020.

TMRS issues a publicly available comprehensive financial report that includes financial statements and required supplementary information (RSI) for TMRS; the report also provides detailed explanations of the contributions, benefits and actuarial methods and assumptions used by the system. This report may be obtained by writing to Texas Municipal Retirement System, P.O. Box 149153, Austin, Texas, 78714-9153 or by calling 800-924-8677; in addition, the report is available on TMRS' website at www.TMRS.com.

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the City were as follows:

Deposit rate	7.00%
Matching ratio (City to employee)	2 – 1
Years required for vesting	5
Service retirement eligibility	20 years at any age, 5 years at age 60 and above
Updated service credit	100% Repeating, Transfers
Annuity increase (to retirees)	50% of CPI Repeating

At the December 31, 2019, valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	202
Inactive employees entitled to but not yet receiving benefits	254
Active employees	<u>264</u>
Total employees	<u><u>720</u></u>

City of Lancaster, Texas
Notes to Basic Financial Statements

Contributions

Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the entry age normal actuarial cost method beginning with the 2013 valuations. This rate consists of the normal cost contribution rate and the prior service contribution rate, which is calculated to be a level percent of payroll from year to year. The normal cost contribution rate finances the portion of an active member's projected benefit allocated annually; the prior service contribution rate amortizes the unfunded actuarial liability over the applicable period for that city. Both the normal cost and prior service contribution rates include recognition of the projected impact of annually repeating benefits, such as Updated Service Credits and Annuity Increases.

The City's contributions to TMRS for the year ended September 30, 2020, were \$2,451,002, and were equal to the required contributions.

The City contributes to the TMRS plan at an actuarially determined rate. Both the employees and the City make contributions monthly. Since the City needs to know its contribution rate in advance for budgetary purposes, there is a one-year delay between the actuarial valuation that serves as the basis for the rate and the calendar year when the rate goes into effect (*i.e.*, December 31, 2012, valuation is effective for the rates beginning January 1, 2014).

Net Pension Liability

Actuarial Assumptions

The total pension liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.5% per year
Overall payroll growth	2.75% per year
Investment rate of return	6.75% net of pension plan investment expense, including inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment, with male rates multiplied by 109 percent and female rates multiplied by 103 percent. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment are used with males rates multiplied by 109 percent and female rates multiplied by 103 percent with a 3-year set-forward for both males and females. In addition, a three percent minimum mortality rate is applied to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements subject to the three percent floor.

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

Actuarial assumptions used in the December 31, 2019, valuation was based on the results of actuarial experience studies. The experience study in TMRS was for the period December 31, 2010 through December 31, 2014. Healthy post-retirement mortality rates and annuity purchase rates were updated based on a *Mortality Experience Investigation Study* covering 2009 through 2011, and dated December 31, 2013. These assumptions were first used in the December 31, 2013, valuation along with a change to the Entry Age Normal (EAN) actuarial cost method. Assumptions are reviewed annually. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments is 6.75 percent. The pension plan’s policy in regard to the allocation of invested assets is established and may be amended by the TMRS Board of Trustees. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, the actuary focused on the area between : (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive).

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Global Equity	30.00%	5.30%
Core Fixed Income	10.00%	1.25%
Non-Core Fixed Income	20.00%	4.14%
Real Return	10.00%	3.85%
Real Estate	10.00%	4.00%
Absolute Return	10.00%	3.48%
Private Equity	10.00%	7.75%
Total	<u>100.00%</u>	

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

Discount Rate

The discount rate used to measure the total pension liability was 6.75 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will remain at the current 7.00 percent and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability

	Total Pension Liability (a)	Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Balances as of October 1, 2019	\$ 85,936,590	\$ 68,548,165	\$ 17,388,425

Pension Plan Fiduciary Net Position:

Detailed information about the pension plan's Fiduciary Net Position is available in a separately issued TMRS financial report. That report may be obtained on the Internet at www.tmr.com.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 2020, the primary government recognized pension expense, as measured in accordance with GASB 68, of \$2,983,131.

At September 30, 2020, the primary government reported deferred outflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 289,856	\$ -
Change of assumptions	189,816	-
Net difference between projected and actual investment earnings plan investments		2,284,974
Contributions subsequent to the measurement date	<u>1,692,867</u>	<u>-</u>
Total	<u>\$ 2,172,539</u>	<u>\$ 2,284,974</u>

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

For the year ended September 30, 2020, the primary government reported \$1,692,867 as deferred outflows of resources related to pensions resulting from primary government contributions subsequent to the measurement date and prior to year-end. This amount will be recognized as a reduction in the net pension liability at September 30, 2020.

For the year ended September 30, 2020, Lancaster Economic Development Corporation recognized pension expense, as measured in accordance with GASB 68, of \$26,848.

At September 30, 2020, Lancaster Economic Development Corporation reported deferred outflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 2,751	\$ -
Change of assumptions	1,806	-
Net difference between projected and actual investment earnings plan investments		21,774
Contributions subsequent to the measurement date	15,830	-
Total	\$ 20,387	\$ 21,774

For the year ended September 30, 2020, Lancaster Economic Development Corporation reported \$15,830 as deferred outflows of resources related to pensions resulting from Lancaster Economic Development Corporation contributions subsequent to the measurement date and prior to year-end. This amount will be recognized as a reduction in the net pension liability at September 30, 2020.

For the year ended September 30, 2020, Lancaster Recreational Development Corporation recognized pension expense, as measured in accordance with GASB 68, of \$134,539.

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

At September 30, 2020, Lancaster Recreational Development Corporation reported deferred outflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 13,718	\$ -
Change of assumptions	9,050	-
Net difference between projected and actual investment earnings plan investments		110,658
Contributions subsequent to the measurement date	76,279	-
Total	\$ 99,047	\$ 110,658

For the year ended September 30, 2020, Lancaster Recreational Development Corporation reported \$76,279 as deferred outflows of resources related to pensions resulting from Lancaster Recreational Development Corporation contributions subsequent to the measurement date and prior to year-end. This amount will be recognized as a reduction in the net pension liability at September 30, 2020.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the primary government will be recognized in pension expense as follows:

	Year Ending September 30,
2020	\$ (397,387)
2021	(499,748)

Year Ending September 30,	
2020	\$ (18,637)
2021	(23,437)
2022	10,264
2023	(56,080)
Total	\$ (87,890)

Note 9: Other Postemployment Benefits

Retiree Health Care Plan

Plan Description

The City provides post-employment medical care (OPEB) for employees through a single-employer defined benefit medical plan. The plan provides medical benefits for eligible retirees, their spouses and dependents through the City’s group health insurance plans, which cover both active and retired members. The benefit levels and contribution rates are approved annually by the City management and the City Council as part of the budget process.

Since no assets are accumulated in a trust that meets the criteria of paragraph four of GASB 75, the plan is not accounted for as a trust fund. The plan does not issue a separate financial report.

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

Benefits Provided

The City provides post-employment medical and dental care benefits to its retirees. Retirees who elect COBRA cannot later elect retiree coverage. To be eligible for coverage an employee must qualify under all three of the following:

1. The retiree must have been covered for medical benefits under the City Health Plan as an employee immediately prior to termination of employment.
2. Apply for pension benefits from TMRS in accordance with their requirements and deadlines, but in no event later than 90 days from termination of employment; and
3. Enroll for retiree Health coverage within 31 days of the date of termination.

Funding Policy

The plan's premium rates are determined annually by City management and approved by the City Council as part of the annual budget. Members receiving HMO medical benefits contribute \$613 per month for retiree-only coverage, \$1,348 per month for retiree and spouse, and \$2,086 per month for retiree and family. Members receiving PPO medical benefits contribute \$679 per month for retiree-only coverage, \$1,495 per month for retiree and spouse, and \$2,313 per month for retiree and family. By the City not contributing anything toward this plan in advance, the City employs a pay-as-you-go method through ensuring the annual employer contributions each year are equal to the benefits that are paid on behalf of the retirees.

Employees Covered by Benefit Terms

Membership in the Plan by membership class at December 31, 2019, (measurement date), is as follows:

Inactive employees or beneficiaries currently receiving benefits	10
Inactive employees entitled to but not yet receiving benefits	-
Active employees	257
Total employees	267

Total OPEB Liability for Retiree Health Care Plan

The City and its component units' total OPEB liability of \$1,358,282 was measured as of December 31, 2019.

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

Actuarial Assumptions

The total OPEB liability in the December 31, 2019, actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

	<u>December 31, 2019</u>
Actuarial Cost Method	Individual Entry-Age
Discount Rate	2.75% as of December 31, 2019
Inflation	2.50%
Salary Increase	3.50% to 11.50%, including inflation
Demographic Assumptions	Based on the experience study covering the four-year period ending December 31, 2018, as conducted for the Texas Municipal Retirement System (TMRS).
Mortality	For healthy retirees, the gender-distinct 2019 Municipal Retirees of Texas Mortality Tables are used. The rates are projected on a fully generational basis using the ultimate mortality improvement rates in the MP tables to account for future mortality rates.
Health Care Trend Rates	Initial rate of 7.10% declining to an ultimate rate of 4.25% after 14 years
Participation Rates	25% for pre-65 retirees who are at least 50 years old at retirement; 0% for retirees younger than 50 years old at retirement

For plans that do not have a formal trust that meets GASB's requirements, the discount rate equals the tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date. The discount rate was based on the daily rate closest to but not later than the measurement date of the Fidelity "20-Year Municipal GO AA Index".

Sensitivity of Total OPEB Liability to Changes in the Discount Rate

The total OPEB liability of the City and its component units has been calculated using a discount rate of 2.75 percent. The following presents the total OPEB liability using a discount rate one percent higher and one percent lower than the current discount rate.

	1% Decrease 1.75%	Current Discount Rate Assumption 2.75%	1% Increase 3.75%
Total OPEB Liability	\$ 1,500,154	\$ 1,358,282	\$ 1,231,107

Sensitivity of Total OPEB Liability to Changes in the Health Care Trend Rates

The total OPEB liability of the City and its component units has been calculated using a health care trend rate of 7.10 percent. The following presents the total OPEB liability using a discount rate one percent higher and one percent lower than the current discount rate.

	1% Decrease	Current Healthcare Cost Trend Rate Assumption	1% Increase
Total OPEB Liability	\$ 1,193,964	\$ 1,358,282	\$ 1,556,560

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended September 30, 2020, the City and its component units recognized OPEB expense of \$127,952. At September 30, 2020, the City and its component units reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 10,927	\$ 13,556
Changes of assumptions	138,695	-
Benefit payments subsequent to the measurement date	49,720	-
Total	\$ 199,342	\$ 13,556

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

Benefit payments subsequent to the measurement date and before fiscal year-end will be recognized as a reduction of the total OPEB liability in the year ending September 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Year Ending September 30</u>	<u>Amortization of Deferred Outflows/(Inflows) of Resources</u>
2021	\$ 19,416
2022	19,416
2023	19,416
2024	19,416
2025	19,416
Thereafter	38,986
Total	\$ 136,066

Supplemental Death Benefit Fund

Plan Description

The City also participates in the single-employer defined benefit OPEB plan providing group term life insurance which is operated by TMRS and is known as the Supplemental Death Benefits fund (SDBF). The City elected, by ordinance, to provide group term life insurance coverage to active and retired members. The City may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1, of any year to be effective the following January 1.

Benefits Provided

The death benefit for active employees provides a lump-sum payment approximately equal to the employee’s annual salary (calculated based on the employee’s actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$7,500; this coverage is an “other post-employment benefit” or OPEB.

The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. This rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to prefund retiree life insurance during employees’ entire careers. No assets are accumulated in a trust that meets the criteria in paragraph four of GASB 75.

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

Employees Covered by Benefit Terms

The following employees were covered by the benefit terms at December 31, 2019, (measurement date), is as follows:

Inactive employees or beneficiaries currently receiving benefits	124
Inactive employees entitled to but not yet receiving benefits	37
Active employees	264
Total employees	425

Total OPEB Liability for Supplemental Death Benefits

The City and its component units total OPEB liability of \$847,429 was measured as of December 31, 2019, and was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The total OPEB liability in the December 31, 2019, actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

	December 31, 2019
Actuarial Cost Method	Individual Entry-Age
Discount Rate	2.75% as of December 31, 2019
Inflation	2.50%
Salary Increases	3.50% to 11.50%, including inflation
Administrative expenses	All administrative expenses are paid through the Pension Trust and accounted for under reporting requirements under GASB Statement No. 68.
Mortality rates – service retirees	2019 Municipal Retirees of Texas Mortality Tables. The rates are projected on a fully generational basis with scale UMP.
Mortality rates – disabled retirees	2019 Municipal Retirees of Texas Mortality Tables with a 4-year set-forward for males and a 3 year set-forward for females. In addition, a 3.5% and 3% minimum mortality rate will be applied to reflect the impairment for younger members who become disabled for males and females, respectively. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

The TMRS SDBF is treated as unfunded OPEB plan because the SDBF trust covers both actives and retirees and the assets are not accumulated in a trust that meets the criteria of paragraph four of GASB 75. Under GASB 75 (paragraph 155), the discount rate for an unfunded OPEB plan should be based on 20-year tax-exempt AA or higher Municipal Bonds. Therefore, a discount rate of 3.71 percent based on the 20-Year Municipal GO AA Index published by bondbuyer.com is used as of the measurement date of December 31, 2019. At transition, GASB 75 also requires that the Total OPEB Liability (TOL) as of the prior fiscal year end be estimated based on the 20-Year Bond GO Index.

2024	8,210
Total	\$ 66,166

Note 10: Litigation

The City is party to several legal actions arising in the ordinary course of business. In the opinion of the City's legal counsel and management, the City has adequate legal defense and/or insurance coverage regarding each of these actions and does not believe the amount is probable.

The City is involved in a litigation case with White Rock Commercial, LLC (White Rock). The case involves the City repaying the cost of infrastructure improvements placed by White Rock. The case was settled subsequent to year end in the amount of \$1,500,000 which has been included within accrued liabilities in the General Fund in the accompanying financial statements.

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

Note 11: Commitments and Contingencies

Risk Management

The City is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City is part of the Texas Municipal League Intergovernmental Risk Pool (Pool). Premiums are paid to the Pool, which retain a limit of loss. Reinsurance companies insure the risks beyond those limits. The City retains, as a risk, only the deductible amount of each policy. There were no significant reductions in coverage in the past fiscal year and there were no settlements exceeding insurance coverage in any of the past three fiscal years.

Trinity River Authority of Texas

The City contracts with Trinity River Authority of Texas (TRA), a conservation and reclamation district, whereby TRA finances, constructs, operates and maintains sewage transportation and treatment facilities for the benefit of the City. The current contract is extended through the date until which all bonds have been paid. The City makes payments monthly, which are based on an estimate of its share of costs. The City's share of costs for the fiscal year ended September 30, 2020, was \$6,157,872, for the Ten Mile Creek Regional Wastewater System and \$114,642, for the Red Oak Creek Regional Wastewater System. This estimate is calculated by TRA who makes adjustments for over/under charges in the City's next fiscal year. There were no adjustments to the amounts as calculated by the TRA for the year ended September 30, 2020.

Federal and State Programs

The City participates in several federal and state grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that if the City has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at September 30, 2020, may be impaired.

Other Contingencies

There are other claims and pending actions incidental to normal operations of the City. In the opinion of the City administration, the City's potential liability in these matters will not have a material impact in the accompanying financial statements.

As a result of the spread of the SARS-CoV-2 virus and the incidence of COVID-19, economic uncertainties have arisen which may negatively affect the financial position, results of operations and cash flows of the City. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time.

City of Lancaster, Texas
Notes to Basic Financial Statements
September 30, 2020

Note 12: Tax Incentive Rebates

The City of Lancaster has four (4) active Commercial Development and Job Related Incentive Rebates that develop or redevelop a particular property attracting business that generates incremental tax revenues. In addition to GASB 77, the agreements are subject Chapter 380 of the Texas Local Government Code that promotes local economic development, commercial activity and business stimulation. City Council approves the agreements via resolution. As part of the agreement, the City agrees to rebate the tax valorem tax increment and the local sales tax after confirmation of payment. If the businesses do not meet the obligations as set forth in the agreement, a clawback provision for default on agreement is included in the agreement and the business agrees to return a percentage of the rebate back to the City. Total rebate of taxes for the year ended September 30, 2020, is \$1,939,969.

Notes to Schedule of Contributions

Valuation Date:

Notes

Actuarially determined contribution rates are calculated as of December 31 and become effective in January 13 months later.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	26 years
Asset Valuation Method	10 Year smoothed market; 12% soft corridor
Inflation	2.50%
Salary Increases	3.50% to 11.50%, including inflation
Investment Rate of Return	6.75%
Retirement Age	Experience-based table of rates that are specific to the City's plan of benefits. Last updated for the 2019 valuation pursuant to an experience study of the period 2014-2018
Mortality	Post retirement: 2019 Municipal Retirees of Texas Mortality Tables. The rates are projected on a fully generational basis with scale UMP. Pre-retirement: PUB(10) mortality rates, with the Public Safety table used for males and the General Employee table used for females. The rates are projected on a fully generational basis with scale UMP.

City of Lancaster, Texas
Notes to Required Supplementary Information (Unaudited)
September 30, 2020

Budgets and Budgetary Accounting

The City adopts an “appropriated budget” of the General Fund on the modified accrual basis of accounting by department. The City is required to present the adopted and final amended budgeted revenues and expenditures. The City compares the final amended budget to actual revenues and expenditures.

An operating budget for the General Fund is legally adopted each fiscal year.

The budget is adopted on a basis consistent with generally accepted accounting principles (GAAP).

The City generally follows these procedures in establishing the budgetary data reflected in the financial statements:

1. A proposed operating budget including proposed expenditures and the means of financing them is submitted to the City Council by the City Manager.
2. Upon receipt of the budget estimates, the City Council holds a first reading on the Budget Ordinance and Tax Roll Ordinance. Information about the Budget Ordinance is then published in the official newspaper of the City.
3. A public hearing on the budget is held.
4. Prior to October 1 the budget is legally enacted through passage of an ordinance. The legal level of budgetary control is at the fund level. The City Manager is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the City Council. Budgetary control has been established at the detail level by line item activity for management control.

**Combining and Individual Fund
Statements and Schedules**

City of Lancaster, Texas
Non-major Governmental Funds
September 30, 2020

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Stormwater Drainage Fund – to account for revenues received from a fee charged for the development of the City’s storm sewer drainage system.

Public Improvement Districts Fund – to account for the activities of the public improvement districts of the City.

Police State Seized Fund – to account for the activities of related funds awarded to the City by the Courts.

Police Federal Seized Fund – to account for the activities of related funds awarded to the City by the Courts.

Hotel/Motel Fund – to account for the revenues received from a hotel and motel tax.

Emergency 911 Fund – to account for revenues received from a fee charged for emergency services.

Parkland Dedication Fund – to account for revenues to provide for parks, open spaces and recreational areas.

Capital Projects Fund

Street Maintenance Fund – to account for maintenance of the City’s transportation system.

City of Lancaster, Texas
Non-major Enterprise Funds
September 30, 2020

Enterprise Funds

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises – where the intent of the City is that costs of providing the goods or services to the general public on a continuing basis will be financed or recovered through user charges. The City has two Non-major Enterprise Funds, which include the following:

Golf Course Fund – to account for the operation of the City’s golf course.

Refuse Fund – to account for the operation of the City’s refuse services.

Reconciliation of the Balance Sheet of Governmental Funds
to the Statement of Net Position
Economic Development Corporation
Discretely Presented Component Units
September 30, 2020

Total fund balance	\$ 7,623,914
Amounts reported in the statement of net position are different because:	
Interest payable on long-term debt does not require current financial resources; therefore, interest payable is not reported as a liability in the balance sheet.	(6,928)
Capital assets used in governmental activities are not financial resources; therefore, are not reported as assets in fund financial statements. Capital assets are reported in the government-wide financial statements, net of accumulated depreciation.	100,378
Long-term liabilities, including notes payable, net pension liability, and OPEB are not due and payable in the current period and therefore are not reported in the fund financial statements.	(1,507,285)
Deferred outflows of resources and deferred inflows of resources represent flows of resources which relate to future periods and, therefore, are not reported in the fund financial statements. Deferred outflows of resources and deferred inflows of resources at year-end consist of:	
Employer contributions (GASB 75)	496
Assumption changes (GASB 75)	2,477
Experience difference (GASB 75)	(455)
Employer contributions (GASB 68)	15,830
Investment return difference (GASB 68)	(21,774)
Assumption changes (GASB 68)	1,806
Experience difference (GASB 68)	2,751
	2,751

City of Lancaster, Texas
Reconciliation of the Statement of Revenues, Expenditures and Changes in
Fund Balance of Governmental Funds to the Statement of Activities
Economic Development Corporation
Discretely Presented Component Units
For the Year Ended September 30, 2020

Net change in fund balance	\$ 676,549
Amounts reported in the statement of activities are different because:	
Current year pension and OPEB expenditures are reported on the fiscal year basis on the governmental statement of revenues, expenditures and changes in fund balance and as actuarially determined in the government-wide statement of activities. These differences are reflected in deferred outflows of resources and deferred inflow of resources balances.	(6,195)
Current year principal payments of long-term liabilities are shown as expenditures in the fund financial statements, but shown as reductions in long-term liabilities in the government-wide financial statements.	35,000

Net change in fund balance	\$ (293,219)
Amounts reported in the statement of activities are different because:	
Transfer of capital assets from general government to component units.	226,712
Depreciation expense on capital assets is reported in the government-wide statement of activities and changes in net position, but they do not require the use of current financial resources. Therefore, depreciation expense is not reported as expenditures in the governmental funds.	(563,616)
Current year principal payments of long-term liabilities are shown as expenditures in the fund financial statements, but shown as reductions in long-term liabilities in the government-wide financial statements.	750,000
Current year pension and OPEB expenditures are reported on the fiscal year basis on the governmental statement of revenues, expenditures and changes in fund balance and as actuarially determined in the government-wide statement of activities. These differences are reflected in deferred outflows of resources and deferred inflow of resources balances.	(31,776)
Current year changes in accrued interest payable do not require the use of current financial resources; therefore, are not reported as expenditures in governmental funds.	<u>4,813</u>
Change in net position	<u>\$ 92,914</u>

Statistical Section

The following portion of the City of Lancaster Comprehensive Annual Financial Report presents detailed information as a context for understanding the information in the financial statements, note disclosures, and required supplementary information regarding the City's overall financial health.

Table	Contents
--------------	-----------------

Financial Trends – *These tables contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.*

Entity-wide information:

- A Net position by component, last ten fiscal years
- B Changes in net position, last ten fiscal years

Governmental funds information:

- C Fund balances of governmental funds, last ten fiscal years
- D Changes in fund balances of governmental funds, last ten fiscal years

Revenue Capacity – *These tables contain information to help the reader assess one of the City's most significant revenue sources, the property tax.*

- E Assessed and estimated actual value of taxable property, last ten fiscal years
- F Direct and overlapping property tax rates, last ten fiscal years
- G Principal taxpayers, current year and nine years ago
- H Ad-valorem tax levies and collections, last ten fiscal years

Debt Capacity – *These tables present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.*

- I Ratios of outstanding debt by type, last ten fiscal years
- J Ratios of net general bonded debt outstanding *per capita*, last ten fiscal years
- K Legal debt margin information
- L Direct and overlapping governmental activities debt, last ten fiscal years
- M Secured revenue coverage – Water Bonds, last ten fiscal years

Demographic and Economic Information – *These tables offer demographic and economic indicators to help understand the environment within which the City's financial activities take place and to help make comparisons over time and with other governments.*

- N Demographic and Economic Statistics, last ten calendar years
- O Principal employers, current and six years ago

Table**Contents**

Operating Information – *These tables contain information about the City’s operations and resources to help the reader understand how the City’s financial information relates to the services the City provides and activities it performs.*

- P Full-time equivalent City government employees by function/program, last ten years
- Q Operating indicators by function/program, last ten fiscal years
- R Capital asset statistics by function/program, last ten fiscal years

Sources: Unless otherwise noted, the information in these tables is derived from the Comprehensive Annual Financial Reports for the relevant years.
