

SOUTH HOUSTON SCHOOL RD. TO DALLAS AVE.

MAIN STREET RECONSTRUCTION

JUNE 2024-
AUGUST 2024

Welcome to the City of Lancaster Main Street Reconstruction Project! Scheduled to begin in June 2024 and expected to be completed by the end of August 2024 (weather permitting), this reconstruction spans from South Houston School Road to Dallas Avenue. It is part of the \$30 million Capital Improvement Road Reconstruction Program. These upgrades are essential for ensuring safer and more efficient transportation for all residents and visitors.

PROJECT SPECIFICS

The project involves reconstructing the current pavement with a 2-inch top layer of asphalt over a 3-inch middle layer of asphalt, and a 4-inch base layer of compacted material or a 6-inch layer of lime-treated soil. This phased construction will cover approximately 4 miles.

ADDITIONAL DETAILS

- Road closures will be necessary during certain phases of the project to facilitate construction activities and ensure safety. The duration and specific locations of these closures will be communicated in advance to minimize inconvenience.
- Should unforeseen events occur that necessitate one-way traffic, proper notice will be given. Public Works will make every effort to avoid these situations.
- This project will improve the road, curb, and gutter along a 4-mile stretch from South Houston School Road to Dallas Avenue.

PROGRESS AS OF JULY 23

The city appreciates your understanding and patience as we move forward with this much-needed project. Please contact City Hall at communityrelations@lancaster-tx.com.
