PRELIMINARY PLAT APPLICATION

The City is concerned about the time, expense and efforts you and City staff have or will put into your project. The check lists herein are provided to expedite the project review process, and to provide clear understanding as to what will be required, and what will be expected and evaluated. City staff is bound by City ordinance and State law regarding publishing of notices, mail outs, etc. that will have an affect upon when your project will be heard by the approval body, which can only occur when the Plat Application and plat is complete in all detail. It has been learned through the years and by many previous cases, that the effectiveness and efficiency of the process most often is determined by the capabilities and determination of consultants and their contractors and associated quality control.

Please read the applicable check list carefully. It is to be completed for all projects and, along with the associated Plat, is required to be complete in all details prior to acknowledgement by the City that the respective plat is ready to proceed for approval. A plat is considered filed with the City on the date of the hearing by the Planning and Zoning Commission or, if subject to administrative approval, when the Plat has been determined to meet all requirements. Instructions for completion are included with each checklist. The Lancaster Development Code may be reviewed on the City's web site www.lancaster-tx.com.

The City has made every effort to evaluate historical plans and approvals to make sure that the check list addresses all details needed on a Plat. Recognizing that no two projects sites are the same, and that consultant's vary in their abilities, determination, experience, and quality control processes, the City may require that a plat or an element of the plat be redone, or that information not specifically addressed on the check list be provided for a smoother review and approval experience.

It is recognized that there most often will be changes needed from what was submitted to the City for review. City staff conscientiously examines each item on a check list to see if the item was sufficiently addressed according to City requirements. Where deficiencies are found, the plat will be marked up and returned to the consultant named on the application to be addressed prior to further review or acceptance.

IMPORTANT NOTICE

Due to recent legislation enacted by the 79th Texas legislature in 2005, the City is required to treat any original application, development plan or plat application as a formal permit application if the submittal gives the City fair notice of the proposed project and hence, according to Chapter 245 of the Texas Local Government Code, the City will treat such as a formal permit application as that term is defined under that Chapter. Once a permit application is received, the City will furnish a response to the applicant within 10 business days from the date of submittal to provide comments as to any deficiencies in the submittal. The applicant shall be given a total number of 45 days, commencing from the initial date of submittal, to make all corrections as noted, to provide a complete set of plans meeting submission requirements, and to correct any deficiencies. Failure of a resubmittal to meet all check list, ordinance and submission requirements upon the expiration of the 45-day period will result in the closure the file; the case shall become null and void, and the permit shall be deemed to be expired. Any further submittal will be treated as a new case and subject to existing requirements, together with required fees.
