The actual cost of abatement shall include an administrative fee of one hundred fifty dollars (\$150.00). In the event there are obstructions such as trees, shrubs, bushes, excavations, foundations, demolished structures or any similar obstructions, an additional charge shall be levied, assessed and collected against such premises. The lien obtained is security for the expenses and interest accrued thereon at the rate of ten percent (10%) annually on the total amount from the date of payment by the city. The lien is inferior only to tax liens and liens for street improvements. The city may bring a suit for foreclosure of the lien to recover the expenses and interest due. The state of expenses or certified copy of the statement is prima facie proof of the expenses incurred by the city in doing the work or making the improvements. This remedy is cumulative of the fine authorized for violation hereof by Section 1.109 of the code of ordinances.
